HANDS-ON ASL ADVENTURES: SIGN LANGUAGE FUN June 12 & 13 & August 14 & 15 | 4-9 | PM

In this hands-on ASL adventure, young learners will embark on an engaging journey that introduces them to the beauty and expressive nature of sign language. Through a variety of fun activities, games, and immersive experiences, children will develop a strong foundation in ASL, fostering communication skills, cultural awareness, and a deep appreciation for the deaf community.

VIBRANT CREATIONS: TIE DYE FUN June 14 & 15 & August 16 & 17 | 4-9 | PM

Learn about different tie-dye techniques, color combinations, and patterns. Discover how to transform plain white garments into vibrant works of art using a variety of colors, tools, and materials. Through playful experimentation, children will develop their creativity while learning about color mixing and the principles of design. They will gain confidence in their abilities and enjoy the process of turning plain fabrics into eye-catching pieces.

CREATIVITY UNLEASHED: ART ADVENTURES June 19-22 | 4-9 | PM

Welcome to the exciting world of Art Exploration! In this engaging and hands-on class, young artists will embark on a creative journey, discovering various art forms, medias, and styles. Through a combination of fun activities, projects, and guided instruction, students will develop their artistic skills, unleash their imagination, and express themselves through the wonderful world of art.

IMAGINATION HEROES: EXPLORING SUPERPOWERS June 26-29 & August 7-10 | 4-9 | PM

Creativity soars as students dive into the magical world of superheroes and extraordinary abilities. Explore various superpowers, both popular and unique, while having the opportunity to create their very own superpower. Students will write a comic highlighting their superpower and will have the chance to share with the class.

TINY TOWN CREATION June 12-22 & August 7-17 | 4-9 | PM

Students will witness the birth of a tiny town! From urban planning to design, layout and scale to model making, and problem solving to execution - this class covers the elements that make a town functional and aesthetically pleasing through the creation of a table top, paper mache and DIY miniature house tiny town.

VISIONS IN MOTION: THE MAKING OF A MUSIC VIDEO July 10-13 | 4-9 | PM

Have you ever wanted to record your own song and star in your own music video? In this class, you will be able to do just that! You Learn how to write a song, record it in a studio, and how to make and edit the music video.. Each student will receive a YouTube private link with their music as well as their own version of the music video that they edited themselves.

**COLORFUL CREATIONS:
EXPLORING RAINBOW RESIN ART**
June 12-22 & August 7-17 | 10-14 | PM

Dive into the mesmerizing world of rainbow resin art. Join us for a creative journey where you will learn the techniques, tools, and secrets to create stunning, vibrant resin masterpieces. In this introduction, students will develop skills in color theory, mixing and pouring, creating rainbow effects, and the finishing and polishing processes. Students will get to take home their finished resin creation(s).
Ages 10-14

**VISIONS IN MOTION: THE MAKING
OF A MUSIC VIDEO**
June 12-22 & August 7-17 | 10-14 | PM

Have you ever wanted to record your own song and star in your own music video? In this class, you will be able to do just that! You Learn how to write a song, record it in a studio, and how to make and edit the music video.. Each student will receive a YouTube private link with their music as well as their own version of the music video that they edited themselves.

**HARMONY HARMONIZERS:
RECORDER AND CHOIR ADVENTURE**
June 26-29 | 10-14 | PM

Designed for aspiring musicians, in this class, students will learn to play or build on previous recorder skills while adding songs and games to the instrumental process. Discover the joy of playing the recorder and the magic of singing in a fun group learning environment that culminates with a short performance. Get ready to create beautiful music together in the "Harmony Harmonizers: Recorder and Choir Adventure!"

**DIGITAL JOURNALISM: NAVIGATING
THE NEW MEDIA LANDSCAPE**
July 17-27 | 10-14 | AM

Learn the art of storytelling through digital platforms. Students will explore catchy headlines, engaging introductions, structuring articles, incorporating multimedia elements, and writing for online audiences. Students will have the opportunity to create their own digital content, such as blog posts, podcasts, or videos. They will learn basic digital content creation tools (microphones, cameras, content editing, etc.), multimedia storytelling, and guidance on presenting their work effectively.

**FROM SEEDS TO SUPPER: THE
JOURNEY OF FOOD PRODUCTION**
July 24-27 | 10-14 | AM

Unravel the fascinating journey of food production, from the farm to the fork. Students will delve into various aspects of agriculture, exploring the vital role of soils, plants, animals, harvesting and cooking, and the sustainable use of natural resources. Field trips to local farms will provide an immersive experience, allowing students to witness firsthand the processes involved in food production.

**FANTASY ART: AIRBRUSHING
SUPERPOWERS FOR BEGINNERS**
June 12-22 & August 7-17 | 10-14 | AM

Unlock the magical realm of fantasy art and bring your imagination to life with airbrushing! In this beginner-level class, students embark on an exhilarating journey into the world of superpowers while creating breathtaking artwork using an airbrush. They will hone their craft through color and light basics, dynamic backgrounds, and special effects and textures, culminating in otherworldly artwork. Previous experience not required.

THE OUTDOOR EXPERIENCE
July 26-29 | 10-14 | AM or PM

Students will take multiple field trips to check out a day in the life of a DNR representative, Curator at a Park/Camp Ground, Animal Caregivers, and more!
Monday - Archery & Orienteering @ WSCC
Tuesday - Guided Hike @ State Park
Wednesday - Animal Fun @ On Location
Thursday - Paddling @ Camp Douglas Smith
Friday - Fishing @ WSCC
Permission slips will be sent out in advance.

WELDING WARMUP
July 10-13 | 10-14 | AM or PM

Welding is the process of joining materials together using heat, electric arc, pressure, and friction. In this class the students will learn about some of the more common ways to do that mainly GMAW (mig, wire welding) and SMAW (stick welding).

PERSPECTIVES IN PHOTOGRAPHY
July 17-27 | 10-14 | PM

Would you like to see your world with different eyes? In this class students begin their photographer journey by learning how to use professional digital cameras. Uncover the mechanics of the camera and how to change the settings to achieve the desired perspective. Students will walk away with a video card of all their photographs from the week, as well as a t-shirt with their favorite self-taken picture(s) printed on it for others to see!

**WILDERNESS EXPEDITION: HIKING &
GEOCACHING**
July 24-27 | 10-14 | PM

Embark on an exhilarating wilderness expedition! Students will explore the wonders of nature, learn valuable navigation skills, and discover hidden treasures through geocaching. The class will be led by and experienced instructor who prioritizes safety, education, and fostering a love for the great outdoors. Unlock the thrill of exploration, problem-solving, and appreciation for nature!

**MASTERING THE ART OF
BROADCASTING: SCRIPT TO SCREEN**
June 12-22 & August 7-17 | 10-14 | AM

In this class students will create their own news show for their own YouTube channel. They will learn the roles of each individual in the news studio from cameraman to on camera talent. Coming up with their own topics to interview people on campus to create an exciting news show for their channel.

Ages 10-14

**CREATIVITY UNLEASHED:
